Teach from Anywhere in the Classroom

InterWrite™ SchoolPad Allows You To...

- Interact and annotate over your current lessons, PowerPoint® slides, Web pages or any other computer application - from anywhere in the room!
- Create exciting and engaging lessons with the extensive InterWrite™ Image Gallery and lesson resources.
- Keep students focused on your lesson as you interact with them throughout the room - even pass the SchoolPad to students and have them contribute from their seat.
- Save, Print and Email all your lesson notes and files - A great tool for lesson review, students who are absent or parents who wish to review what their children are learning.
- Participate in the InterWrite™ Educators Resource Center where you can join with fellow teachers to share lessons and activities, learn new ideas on how to use your SchoolPad, download new images and background templates, and receive free training via WebEx or online videos.
- Create a truly dynamic learning environment. When used with other InterWrite™ Interactive Classroom products, you engage the student with the lesson and quickly assess their knowledge - connecting with every child so no one is left behind.

InterWrite™ Software Included

Windows® and Mac® Compatible

One year warranty

Student Can Interact From Their Seats

Share up to 7 SchoolPads in the class so groups of students can collaborate on assignments and projects.

Imagine being able to be in two places at once! You can, with the **InterWrite™ SchoolPad**. For years, GTCO CalComp has been providing teachers the freedom to create and deliver exciting and engaging lessons from anywhere in the classroom with the **InterWrite™ SchoolPad** - the first Bluetooth® wireless pad for the interactive classroom. Teachers can project computer images on the **InterWrite™ SchoolBoard**, or any surface, and use the **SchoolPad** to write notes, highlight key points, insert images and graphics or control any application on your computer. Easily circulate around the room and focus attention on individual students while the rest of the class is focused on the lesson at the front of the room.

Part of the **InterWrite™ Interactive Classroom**, the **InterWrite™ SchoolPad** keeps your students engaged and allows you to truly connect with every child. Envision your classroom - whether you are teaching about the Water Cycle or elements in the Periodic Table - where your students are focused, excited and eager to learn.

Choose from thousands of images in our InterWrite™ Software image gallery to create powerful and engaging lessons.

InterWrite™ Software provides content for many subject areas including math, science, geography, and much more.

The InterWrite™ SchoolPad is an integral part of the Interactive Classroom - especially when used together with InterWrite™ PRS, a powerful student response system.
